## FUNGICIDE

FUNGICIDE

### Effective Pythium Control: Unsurpassed Turf Quality.

Stellar<sup>®</sup> is a unique fungicide premix that offers excellent control of Pythium due to its novel and synergistic mode-of-action. Stellar is a combination of fluopicolide and propamocarb, which increases the effectiveness of each component for super charged Pythium control. With one of your toughest foes under control, you'll be free to focus on other enemies attacking your turf.

#### TOTAL CONTROL OVER PYTHIUM

- Synergistic premix of fluopicolide and propamocarb
- Novel mode-of-action (MOA) for improved resistance management

**EPA REG. NO.** 59639-143

**ACTIVE INGR.** propamocarb hydrochloride (55.40%), fluopicolide (5.54%)

**FORMULATION** liquid

**CHEM. FAMILY** carbamate/benzamide

**FRAC NO.** 28 and 43

**SIGNAL WORD** caution

**RESTRICTED** no

**PACKAGE SIZE** 4 x 104 oz bottle

## FUNGICIDE

FUNGICIDE

### KEY USES

Golf courses  
Sod farms

### KEY DISEASES CONTROLLED

*(See product label for complete list)*

Pythium blight  
Pythium damping off

### APPLICATION RECOMMENDATIONS

**RATES:** 1.2 fl oz per 1000 sq ft (52 fl oz/A). The maximum application rate is 2.4 fl oz per 1000 sq ft per year (104 fl oz/A per year). Apply in a minimum volume of 2 gals per 1000 sq ft.

**Overseeded Turf:** Apply after seed germination to prevent Pythium damping off.

**Established Turf:** Apply when conditions favor disease development. Favorable conditions include high temperatures and high humidity. Do not apply more than two (2) applications of Stellar Fungicide per season. If necessary, make an additional application on a 14 day interval.

Stellar Fungicide is most effective when applied in a regularly scheduled spray program used in combination and/or rotation with other effective fungicides that have different modes of action (i.e., non Group 28 & 43 fungicides).

*See label for complete application rates and recommendations.*

### PRECAUTIONS AND RESTRICTIONS

DO NOT apply for foliar disease control if measurable rain is expected within 2 hours of application or foliar disease control may be reduced.

DO NOT use this product via chemigation on turfgrass.

*See label for complete application precautions and restrictions.*
