Combustion Products: Thermal decomposition may produce hydrogen fluoride and oxides of carbon and nitrogen.

Unusual Fire/Explosion Hazards: Organic dusts may form explosive dust/air mixtures. Class St 1 dust explosion hazard.

6. ACCIDENTAL RELEASE MEASURES

Steps to be taken: Shovel or sweep up material and place in a container for disposal. Do not allow spill to enter waterways. Keep all sources of ignition away from the spill, and avoid creating dusty conditions when handling this material. If heavy dusting cannot be avoided, ground all equipment.

Absorbents: None necessary due to product form and packaging.

Incompatibles: Not available.

7. HANDLING AND STORAGE

Handling: Wash hands before eating, drinking, chewing gum, using tobacco, or using toilet. Remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Remove PPE immediately after handling product. As soon as possible, wash thoroughly and change into clean clothing.

Storage: Do not contaminate water, food or feed by storage. Store in a cool, dry, secure place and keep container tightly closed. Store away from pets. . This product is formulated in oil bait. Prolonged exposure to air may turn oil rancid and reduce the attractiveness of the bait. Use within 3 months after opening.
