

Milliken®

Mirage® Blue WSB

Lake and Pond Colorants

**A Blend of Acid Blue # 9 Dye &
Acid Yellow # 23 Dye**

Net Contents: 16 Water Soluble Bags

General Information

MIRAGE® Blue WSB Lake & Pond Color is a blended formulation of water soluble dyes packaged in convenient water soluble bags. MIRAGE® Blue WSB Lake & Pond Color is designed for use in lakes, ponds, decorative water features and other impounded bodies of water with limited outflow. MIRAGE® Blue WSB Lake & Pond Color beautifies murky, cloudy or off-color water with a pleasing natural aqua-blue tint.

Mixing Instructions

- Remove bag from outer plastic bag with a dry, gloved hand. Toss the bags into the lake or pond, spacing evenly in the water area. The most effective applications will be where the bags are placed in deeper water, or next to aerators or turbulent areas.
- Bags will begin to dissolve in three to five minutes (somewhat longer in colder waters), releasing MIRAGE® Blue WSB Lake & Pond Color.
- Dispersion of the color will depend on the movement of the water, but should occur within hours after treatment.
- Once color has been allowed to disperse completely, add bags, if needed, to maintain desired coloration.

Recommended Application Rates

1. Determine the number of acre feet in the lake or pond. Surface area in acres [length (ft) X width (ft) / 43,560] times the average depth (ft) = Acre Feet. An acre foot is the area covering one surface acre, 12 inches deep.
2. **Apply one (1) bag per acre foot** or 1,234 cubic meters of water. For metric conversion to cubic meters, multiply acre feet by 1,234.

Directions for Water Use and Restrictions

- Water may be used for irrigation or fishing immediately following treatment.
- Allow several hours for MIRAGE® Blue WSB Lake & Pond Color to disperse before swimming.
- Do not apply MIRAGE® Blue WSB Lake & Pond Color to water used for human consumption.
- The diluted color in treated water will not stain exposed surfaces.
- The diluted color in treated water will not harm fish, waterfowl, pets or wildlife.
- Chlorinated water will cause color fading, requiring higher dosages or more frequent treatments

Health, Safety, and First Aid Information

- **In Eyes** – Immediately wash eyes with large amounts of water for at least 15 minutes, lifting the lower and upper lids. Seek medical attention immediately.
- **On Skin** – Remove contaminated clothing and shoes. Wash exposed skin with soap and water. If irritation develops, consult a physician.
- **If Swallowed** – If a person is conscious, immediately give large quantities of water and induce vomiting. Do not induce vomiting or give any fluids by mouth to an unconscious person. Seek medical attention immediately. **If Inhaled** – Move person to fresh air and check to ensure adequate respiration. Seek medical attention.

Handling, Transportation, Storage and Disposal

- **Handling – CAUTION:** Do not handle water soluble bags with wet hands, wet gloves, or place on wet surfaces.
- **Transportation** – MIRAGE® Blue WSB Lake & Pond Color is classified as a non-hazardous chemical. Not regulated by the U.S. Department of Transportation.
- **Storage – CAUTION:** Keep from Freezing. Freezing may cause water soluble bags to become brittle. Store in original container only and keep sealed. Store in secured storage areas. Use caution when moving, opening and dispensing.
- **Product Disposal** – Wastes resulting from use of this product should be disposed of through on-site application or at an approved waste disposal facility.
- **Container Disposal** – Offer for recycling or reconditioning, dispose of in a sanitary landfill or follow other procedures approved by federal, state and local authorities. Re-use of this container is not recommended.

General Use Precautions

- Always consult the Material Safety Data Sheet for specific instructions.
- MIRAGE® Blue WSB Lake & Pond Color is a blend of dyes. The concentrated powder will stain skin, clothing, and equipment.
- The information contained herein is provided for the purpose of disclosing product application and does not constitute product specifications regarding which, if any, warranties are expressed or implied.
