

# X-XTRA IRON 6-0-0

## LONG - LASTING GREEN UP WITHOUT THE FLUSH GROWTH

- Over 1 lb of Iron per gallon
- Corrects deficiencies and chlorosis overnight
- Promotes rich green color
- Combats yellowing from herbicide applications
- Ideal for high traffic areas
- For use on turf, trees & ornamentals

## VITAL NUTRIENTS THAT ALL PLANTS NEED TO FUNCTION

- Iron is essential for chlorophyll synthesis
- Iron activates enzyme production
- Important for soil microorganisms
- Provides soluble Sulfur, a major plant nutrient
- Sulfur activates enzymes and vitamins

## FASTER AND MORE EFFICIENT FOLIAR UPTAKE

## EVEN IN POOR SOIL CONDITIONS AND EXTREME WEATHER

### High Iron 9%- Low Nitrogen 6%

X-Xtra Iron provides 100% soluble iron in an immediately available form for both foliar and root applications. Formulated by a unique Iron/Nitrogen complex that converts the iron to a soluble form, it stimulates fast green up with no surge growth. It contains the three most essential nutrients for photosynthesis: Iron, Nitrogen and Sulfur. X-Xtra Iron is amine compatible and can be used with herbicides and pesticides as well as other Growth Products nutrients. When used for regular turf maintenance, it enhances a rich green color and promotes strong root systems for high traffic areas and stress conditions. X-Xtra Iron can be used on turf, tree and ornamentals for correction of iron deficiencies and chlorosis.
