Net Contents:      Liquid – 4 x 1 gallons (4x 3.78 Liters)  
                              WSP – 16 x 1 WSP per case

### GENERAL PRODUCT DESCRIPTION

**BLACK ONYX™ Lake and Pond Colorant** is a high concentrate colorant that helps create the unique natural look of black water lakes and ponds favored in golf course and resort locations. The look of ornamental water features, water gardens, and other contained bodies of water will also be enhanced by the use of **BLACK ONYX Lake and Pond Colorant**.

**BLACK ONYX** will transform pale, off-colored water to a decorative, mirror-like black color. Water treated with **BLACK ONYX** may be used for irrigation, but not for potable water. Swimming and other recreational water sports are approved during and following use of this product. Fish, waterfowl, or animals are not harmed or discolored by normal use of this product.

**BLACK ONYX** may be used in conjunction with Becker Underwood's **Lake Pak™ WSP®** for an effective nutrient management and water clarity improvement program.

### DIRECTIONS FOR USE

**This product should not be applied to streams, rivers, outflows, or water not completely controlled by the user.**

### APPLICATION RATES

	Liquid	WSP
<b>Large water bodies</b>	Apply 32 – 64 oz per surface-acre of water four (4) feet deep	Apply 1-2 WSPs per surface-acre of water four (4) feet deep
<b>Other water features</b>	Apply 2 ounces per 20,000 gals of water	Black Onyx Liquid recommended for small water features

1 acre-foot = 1 surface acre x 1 foot deep

1 acre-foot = 325,851 gallons

Determine the volume of water to be treated and consult the Application Rates chart to determine the amount of liquid or WSPs to use.

**BLACK ONYX Liquid** should be applied near the shoreline at various locations around the lake or pond to achieve the best coverage. **BLACK ONYX WSP** water-soluble packets should be distributed uniformly across the surface of the water body. The amount of colorant may be varied to achieve the desired color of water.

Re-applications of **BLACK ONYX** will help maintain the desired water color throughout the season.

## **SPECIAL INSTRUCTIONS**

### **DO NOT FREEZE WATER-SOLUBLE PACKETS.**

Store in a cool, dry area above 40°F (4°C). Water soluble film may become brittle at colder temperatures. Always protect the Water Soluble Packet from exposure to moisture or high humidity. Do not handle the WSPs with wet hands. Reseal the protective outer bags immediately after the packets are removed.

## **CAUTION**

### **KEEP OUT OF REACH OF CHILDREN**

Avoid contact of concentrate with eyes and skin. May be harmful if swallowed.  
Refer to Material Safety Data Sheet for additional information.
