

FOR USE TO INDUCE ROOT GROWTH ON CUTTINGS FROM VARIOUS PLANTS, SHRUBS, AND TREES

Product Information Bulletin

425

GENERAL INFORMATION

Hormodin is a formulation of indole-3-butyric acid (IBA). IBA is a synthetic auxin which acts as a root stimulant.

Active Ingredients	No.1	No.2	No.3
Indole - 3 butyric Acid	00.1%	00.3%	00.8%
Other Ingredients	99.9%	99.7%	99.2%

Packaging: **Hormodin #1** and **Hormodin #2** are packaged in 1-pound containers (12 x 1# per case). **Hormodin #3** is packaged in 8 oz. containers (12 x 8 oz. per case). All formulations are packaged in 10 KG and 10 lb. pails.

RESTRICTED ENTRY INTERVAL (REI) AND SIGNAL WORD

REI = **0 hours**

Signal Word = **CAUTION**

PERSONAL PROTECTION EQUIPMENT (PPE)

- Long-sleeved shirt and long pants
- Chemical resistant or waterproof gloves
- Shoes plus socks

ADVANTAGES OF HORMODIN

- Enhances root growth
- Reduces bench time
- Reduces plant loss
- Easy to use
- Dependable performance
- 0 Hour REI
- No disease migration

APPLICATION

Moisten cuttings. If not already moist, the basal ends of the cuttings should be slightly moistened before treatment (except geraniums). Pour a small amount of **Hormodin** into a bowl or pan. Stir basal ends in **Hormodin**. Remove excess powder by tapping on rim of container. Plant treated cuttings in satisfactory rooting medium.

- **Dip it**
- **Tap it**
- **Stick it**

Hormodin works best when used on fresh cuttings.

MODE OF ACTION

Hormodin contains IBA, a synthetic auxin that stimulates root growth.

CHOOSING A FORMULATION

Hormodin #1 is for use on most bedding, greenhouse, and home garden plants.

Hormodin #2 is for use on woody and semi-woody varieties.

Hormodin #3 is for use on difficult-to-root plants.
