GENERAL INFORMATION

TRI-CARD FOAM MARKER is an extremely versatile foam concentrate which excels at providing highly visible, long lasting foam marks under ideal and adverse conditions. The superior blend of special agents allows it to perform in foam marking applications where hard water or adverse weather conditions might exist. The rich foam produced by **TRI-CARD FOAM MARKER** is highly visible and aids in reducing over-applications of pesticides or fertilizers.

KEEP OUT OF REACH OF CHILDREN

WARNING

Avoid eye and skin contact. Avoid ingestion, breathing vapors or spray mist. NOTE: DO NOT ALLOW TO FREEZE. Read and follow all label directions and cautions on all products used.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

APPLICATION RATES

TRI-CARD FOAM MARKER can be used at dilutions which range from 160:1 to 80:1. The standard usage rate in most conditions will be 100:1 or 1 gallon (128 fluid ounces) of **TRI-CARD FOAM MARKER** per 100 gallons of water when water hardness is between 300 and 1000 ppm.

Under conditions where soft water exists, a rate of 160:1 may be used or .625 gallons (80 fluid ounces) of **TRI-CARD FOAM MARKER** per 100 gallons of water. Under extreme water hardness conditions, a rate of 80:1 or 1.25 gallon (160 fluid ounces) may be required.

Note: If foam is runny, add additional **TRI-CARD FOAM MARKER** until foam reaches optimum consistency. If foam consistency is too thick, dilute mixture further with water.

IMPORTANT

It is recommended that water temperatures not exceed 80° Fahrenheit or drop below 25° Fahrenheit when applying a foam concentrate.

STORAGE AND DISPOSAL

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. Do not store near oxidizing agents.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.

WARRANTY: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
