

VegetationManager®

ECOMAZAPYR 2 SL

For control of Grassy, Brush, and Broadleaf Weeds

Control floating and emergent vegetation in a variety of applications that can help to reclaim aquatic environments and riparian areas. Allows for use in transitional areas between terrestrial and aquatic sites.

- ▶ Long term control
- ▶ Aqueous solution
- ▶ Rapidly breaks down and dissipates in aquatic systems
- ▶ Lower use rates minimizing load on the environment
- ▶ Broad spectrum control of invasive, emergent, and woody wetland weeds
- ▶ Conveniently packaged in 2.5 gallon jugs.
- ▶ Rapid translocation throughout leaves and stems of targeted plants.

Control of problem vegetation such as:

Alligatorweed
Giant Reed
Cattail
Nightshade
Cogongrass
Water lily
Brazilian pepper

Formulation	27.8% Aqueous Solution
Active Ingredient	Imazapyr
Equivalent Brand	BASF Habitat®
Packaging	2 x 2.5 gallons/case (36 cases per pallet)
Application Rates	See label for specific uses and rates.
Mode of Action	Pre & Post Emergence
Signal Word	Caution
