**Special hazards arising from the chemical**

**Unusual fire and explosion hazards:** At elevated temperatures containers may rupture.

**Combustion products:** oxides of carbon.

**Special protective equipment and precautions for fire-fighters:** Wear full protective firefighting gear including self-contained breathing apparatus (SCBA) for protection against possible exposure.

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Occupational spill/release:** Stop leak if possible without personal risk. Reduce vapors with water spray

**Small spills:** Absorb with sand or other non-combustible material. Collect spilled material in appropriate container for disposal.

Avoid breathing vapor or mist. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Contaminated clothing should be removed and laundered before reuse.

### Storage Procedures

Store in accordance with all current regulations and standards. Keep separated from incompatible substances.

## SECTION 8 – EXPOSURE CONTROLS and PERSONAL PROTECTION

**Exposure guidelines:**

INGREDIENTS	CAS# / EINECS #	EXPOSURE LIMITS
NONE		

**Appropriate engineering controls:** General ventilation should be adequate for normal use. For operations where the occupational exposure limit may be exceeded, mechanical ventilation such as local exhaust may be needed

### PERSONAL PROTECTION:

**Eye Protection:** Avoid eye contact. Safety glasses or goggles recommended if splashing is possible.

**Skin Protection:** Avoid prolonged skin contact. Rubber or other impervious gloves are recommended where prolonged or repeated skin contact is likely.

**Respiratory Protection:** None needed for normal use with adequate ventilation. Use a NIOSH approved respirator with organic vapor cartridges or supplied air respirator if needed. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.

**Other Protective Equipment:** For operations where contact can occur, an eye wash facility should be available.
