Keep only in original container. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. DO NOT FREEZE.

PRIME SOURCE

GENERAL INFORMATION

Aqua Blue WSB SELECT tints water a natural blue and restores a beautiful opalescent quality to controlled discharge systems such as lakes, lagoons, ponds or water features that have become dingy and hazy. Non-toxic to aquatic life, pets, water fowl and irrigation systems, **Aqua Blue WSB SELECT** is not recommended for use in systems such as rivers or streams where the water flow is not impounded. Swimming, fishing and water sports are safe immediately after application of **Aqua Blue WSB SELECT**. When used as directed **Aqua Blue WSB SELECT** will not stain concrete, stone, or swimwear. Photo-degradation, biological processes and dilution or chlorine will naturally diminish color intensity over time-2 to 4 weeks. Typically dissolving in 3-5 minutes, easy to use **Aqua Blue WSB SELECT** simplifies user contact, clean-up and package disposal.

DIRECTIONS FOR USE

Use this formula to calculate the volume of water for treatment:

$$\text{Length} \times \text{width} \times \text{depth} = \text{acre-foot} \\ 43,560$$

(1 acre-foot = 325,851 gallons.)

For each 1 acre-foot of water feature surface area, use one packet of **Aqua Blue WSB SELECT**. Color intensity maybe adjusted by gradually increasing or decreasing the application rate as needed. Place packets near aerators, waterfalls or circulating pumps and evenly spaced across large surface areas to speed dispersal rate. Temperature differences, wind and currents will disperse colorant where there are no mechanical systems.

STORAGE AND HANDLING

DO NOT FREEZE

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F. **Aqua Blue WSB SELECT** may appear to be slightly reddish in color, when in packet. The colorant is blue when added to water.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.
