

LINE DRIVE

AMMONIUM SULFATE - WATER CONDITIONER - ANTIFOAMING AGENT

PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of ammonium sulfate, polydimethylsiloxane and constituents ineffective as adjuvants . . . 100%
Total 100%

LINE DRIVE contains 3.8 lbs of Ammonium Sulfate per gallon

All ingredients are exempt from tolerance requirements under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN CAUTION

Avoid eye and skin contact. Avoid ingestion, breathing vapors or spray mist.

NOTE: Read and follow all label directions and cautions on all products used.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

LINE DRIVE is a convenient spray additive that is ready-to-use with any herbicides that recommend or require that ammonium sulfate be used as an additive. LINE DRIVE is a superior source of ammonium ions, whose presence has been proven to enhance uptake of such herbicides as glyphosate and glufosinate. LINE DRIVE buffers the pH of spray tank solutions to prevent hydrolysis. LINE DRIVE also ties up hard water ions which can be antagonistic to active ingredients. Sound agricultural practices and technology must be used when applying pesticides. LINE DRIVE is compatible with most pesticides. Always follow the directions on the pesticide label.

The addition of the recommended amount of TRICARD LINE DRIVE delivers 9.75 to 19.5 lbs of AMS per 100 gallons of spray solution.

**FOR USE WITH PRODUCTS REGISTERED FOR: AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL,
NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND OTHER PEST CONTROL PURPOSES NOT FOR AQUATIC USE**

DIRECTIONS FOR USE

The addition of LINE DRIVE to a tank mix should always follow the review of herbicide(s) labels and their procedures, rates and application requirements. Before using LINE DRIVE, it is recommended that the user be familiar with or conduct a field test to check for phytotoxicity for the herbicide combination.

For best performance, add LINE DRIVE to the spray tank before the addition of pesticides in order to buffer the water and minimize antagonism with hard water ions.

Add 1/2 to 2/3 of the desired water to the spray tank. Begin agitation. Add LINE DRIVE. Maintain agitation for a uniform mixture and add ingredients in the order on the pesticide label.

Glyphosate tank mixes: Use a rate of 2.5% to 5% or 2.5 gallons to 5 gallons TRICARD LINE DRIVE per 100 gallons of spray solution.

STORAGE AND DISPOSAL

CONTAINER DISPOSAL

Triple rinse, then offer container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. If incineration is allowed, stay out of smoke.

HANDLING AND STORAGE

Store in a cool, dry place. Material may freeze and/or form solids under long-term, very cold (20°F) storage. If material freezes or solids form, allow to warm to room temperature and shake very well until solids are redissolved. Avoid contact with iron clad, copper and copper bearing materials. Avoid contact with eyes and skin. Do not store near oxidizing agents.

WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
