

Mosquito Mist Ultra

Synergized Permethrin Formulation

Mosquito Mist Ultra contains 20.6% permethrin and 20.6% piperonyl butoxide (PBO), which allow the product to maximize its effectiveness against mosquito populations — including species that transmit West Nile Virus. Mosquito Mist Ultra has the versatility to be mixed with both water and or oil, and is designed for residential misting systems, ultra low-volume (ULV) and thermal fogging applications.

- Controls mosquitoes, and flies in residential, industrial and commercial and urban areas, parks, campgrounds, woodlands, athletic fields, golf courses, playgrounds, and other areas listed
- For use in residential misting systems, ULV, thermal and barrier applications using ground and aerial equipment
- Flexible formulation can be diluted with water or oil

Formulation	Synergized Permethrin
Active Ingredient	20.6% permethrin and 20.6% piperonyl butoxide (PBO)
Effective Against	Adult Mosquitoes (including organophosphate resistant Mosquitoes), Midges (Biting and Non-Biting), Blackflies
Packaging	4 x 1 gallon (48 cases/pallet) 6 x 1 quart (80 cases/pallet)
Application Rate	See label for specific uses and rates
Mode of Action	Contact
Signal Word	Caution
