

Navicon[®]

Intrinsic[®] Brand Fungicide

A powerful, dual action DMI that redefines turf safety.

Introducing Navicon[®] Intrinsic[®] brand fungicide. This highly advanced new fungicide combines the plant health benefits of Intrinsic brand fungicides with a first-of-its-kind DMI chemistry to deliver broad-spectrum disease control unmatched by its competitors.

 **BASF**
We create chemistry

Navicon® Intrinsic® brand fungicide is the new broad-spectrum demethylase inhibitor (DMI) and strobilurin combination. Spray it on any turf at any temperature for effective control of the toughest diseases while providing strong plant health from the roots up.

Available in 4 x 37 fl oz and 2 x 2.5 gal

Controls Toughest Diseases

Superior control of Dollar spot, Spring dead spot, Anthracnose, Fairy ring and Summer patch

Anchored with Intrinsic Brand Plant Health

Delivering plant health you can count on from the roots up

Advanced Turfgrass Safety

Advanced turfgrass safety, on any turf, in any season - period

Unique DMI + Strobilurin Chemistry

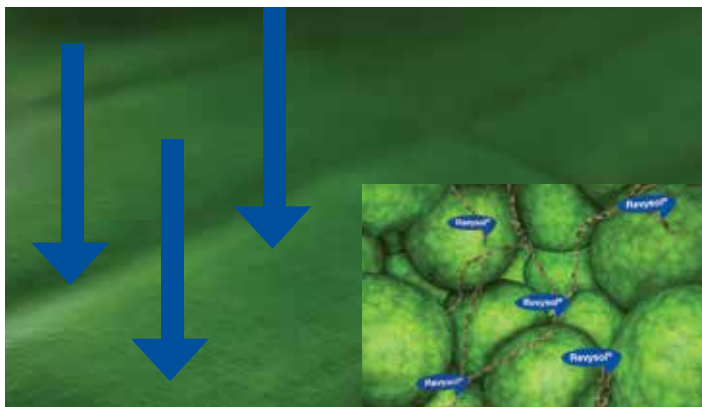

A DMI like no other combined with proven strobilurin chemistry

Proven plant health meets groundbreaking fungicide technology

Navicon Intrinsic brand fungicide combines the power of the new Maxtima® fungicide with the proven, plant health benefits of Insignia® Intrinsic brand fungicide. Together, these dual action chemistries are designed for effective greens rotation.

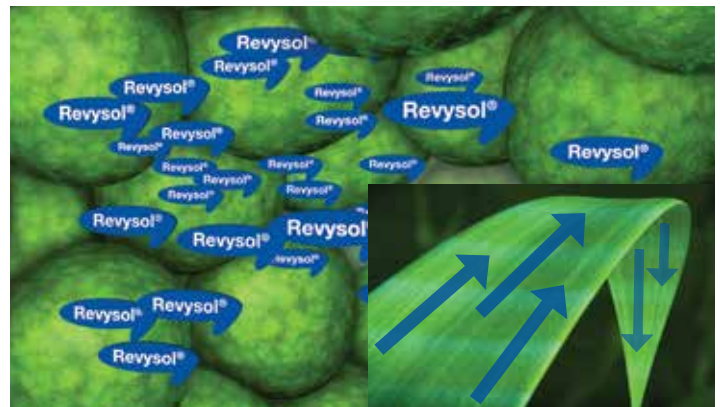

- Controls up to 26 diseases
- Advanced turf safety proven by university trials
- Powerful greens rotation partner with Lexicon® Intrinsic brand fungicide
- Strong midsummer partner for fairways

Strong Efficacy

Rapid uptake of Revysol active ingredient provides outstanding and quick action to stop infection.

Long-Lasting Protection

After uptake, the majority of Revysol active ingredient is well-protected in the inner leaf. Slow release from this inner-leaf reservoir provides long-lasting protection.

FRAC Group	Active Ingredients (%)	Rate Range	Formulation	Length of Control	Packaging	Top Diseases
3 + 11	Mefentrifluconazole 17.56% Pyraclostrobin 17.56%	0.7-0.85 fl oz per 1000 ft ² 111 fl oz/A annual maximum	SC Formulation	14 – 28 day Preventive	4 x 37 fl oz 2 x 2.5 gal	Dollar spot, Spring dead spot, Anthracnose, Fairy ring, Summer patch, Take-all root rot
