5. FIREFIGHTING MEASURES

Flash Point: approx. < -6°C; > 18 in. flame extension

Fire and Explosion Hazards: Aerosol container contains flammable gas under pressure. Pressure inside container is increased when heated and may cause explosion. If product is heated above decomposition temperature, toxic vapors will be released. The substances/groups of substances mentioned can be released in case of fire.

Extinguishing Medium: Foam, dry powder, or carbon dioxide (CO₂).

Fire Fighting Equipment: Firefighters should be equipped with self-contained positive pressure breathing apparatus and full bunker gear.

5. FIREFIGHTING MEASURES (Cont.)

Fire Fighting Instructions: Evacuate area of all unnecessary personnel and fight fire from a safe distance upwind. Contain contaminated water / firefighting water; do not allow to enter drains or waterways. Use foam or dry chemical fire extinguishing systems to prevent environmental damage from excessive water runoff.

Hazardous Combustion Products: Combustion forms carbon monoxide, carbon dioxide, and hydrocarbons.

NFPA Ratings: Health – 1 / Flammability – 4 / Reactivity - 1

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Isolate area and keep unnecessary and unprotected personnel from entering. Extinguish nearby and downwind sources of ignition. Ensure adequate ventilation. Wear suitable personal protective clothing and equipment as described in Section 8 of this document.

Environmental Precautions: Prevent material from entering public sewer systems or any waterways. Do not flush to drain or soil. Contain contaminated water.

Spill Cleanup: Stop the source of the release and clean up spill immediately. Spills should be contained, solidified, and placed in suitable containers for disposal. After decontamination, spill area can be washed with water. Collect wash water for approved disposal.

7. HANDLING AND STORAGE

Handling: Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove personal protective equipment (PPE) immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Storage: Store product in original container in a dry storage area out of reach of children and animals. Do not expose to temperatures exceeding 50°C/122°F.
