- Designed for newly seeded turf
- High Phosphorus content to promote root development
- Contains both slowly available and quick release nitrogen
- SGN 215 for uniform application

GUARANTEED ANALYSIS

Total Nitrogen (N)	18.00%
9.39% Ammoniacal Nitrogen	
8.61% Urea Nitrogen*	
Available Phosphate (P ₂ O ₅)	24.00%
Soluble Potash (K ₂ O)	12.00%
Plant nutrients derived from ammonium phosphate, urea, potassium chloride and polymer coated sulfur coated urea.	
*4.50% Slowly Available Nitrogen from Polymer Coated Sulfur Coated Urea	
Chlorine (Cl) Max.	10.10%
	F292

GENERAL INFORMATION

The Andersons Professional Turf Products 18-24-12 is a fertilizer specially designed as a seed starter that promotes vigorous seedling development and root establishment. This product also enhances spring green-up and corrects Phosphorus deficiencies in established turf. The standard granular particle sizing of this product is carefully controlled to maintain uniformity of application. Lightly raking or dragging the seed and fertilizer together into the top inch of soil is beneficial.

WHEN AND HOW TO USE

Seeding, Sodding or Sprigging:

Fall and spring are the best times for establishment of seeded turf since cooler temperatures enhance the establishment of better root structure. Apply 4.0 pounds per 1,000 square feet prior to seeding, mixing the granules well into the top inch of soil by tilling or premixing with the top soil mixture before its application. Then apply grass seed, sod or sprigs according to directions, along with moisture-retaining and stabilizing mulch materials as required. Provide adequate moisture on a daily basis until the new grass is well established.

When overseeding established or dormant turf, closely mow turf first. Then, using a turf slicing machine or core aerifier, cut into soil to open areas for better seed-to-soil contact. Apply 4.0 pounds per 1,000 square feet prior to seeding. Provide adequate moisture on a daily basis until the new grass is well established. Apply a second application 3-6 weeks after appearance of new seedlings.

Established Turf:

Spring is the best time to apply a high phosphorus product for established turf. Apply at 4.0 pounds per 1,000 square feet, then water in immediately for best results.

In severely phosphate-deficient soils, for both new seeding and established turf, rates of up to double the recommended rate may be required for best results. To ensure that you have the best possible fertilization program, use fertilizers in conjunction with a soil and tissue test program operated by a state certified laboratory familiar with the soils of your region. Cooperative extension agents can provide the names of recommended labs in your area.

To find your local extension agent, visit www.csrees.usda.gov.

Apply only as directed during the growing season.

Recent research has shown that well-maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.

IMPORTANT: READ BEFORE USE:

Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER and LIMITATION of LIABILITY:

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. Manufacturer makes NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. To the extent consistent with applicable law, it is Manufacturer's intent to LIMIT ANY LIABILITY FOR SPECIAL, CONSEQUENTIAL OR INCIDENTAL ECONOMIC DAMAGES to refund of purchase price or replacement of product, at Buyer's choice. To the extent consistent with applicable law, Manufacturer DISCLAIMS ANY LIABILITY FOR COMPENSATORY OR OTHER DAMAGES ARISING OUT OF ANY USE CONTRARY TO LABEL DIRECTIONS. Use contrary to label directions is not permitted.

LEGAL RIGHTS:

THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS; YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION.
