

TRIMEC® BENTGRASS FORMULA

BROADLEAF HERBICIDE

Used to protect some of the most valuable turf in the world.

The product of choice for some of the most valuable turf in the world — bentgrass greens on world class golf courses. Trimec® Bentgrass Formula Broadleaf Herbicide provides superior post-emergent broadleaf weed control in bentgrass and other 2,4-D sensitive grasses.

Trimec Bentgrass Formula has been thoroughly proven in all bentgrass areas of the United States. Its effectiveness in cool temperatures —

as low as 50°F — allows early-spring and fall use. Trimec Bentgrass Formula is the best broadleaf weed control option for bentgrass greens, tees, fairways and aprons.

Trimec Bentgrass Formula is also registered for buffalograss, centipedegrass and St. Augustinegrass¹.

¹Do not apply this product to Floratam St. Augustinegrass.

Trimec is a registered trademark of PBI/GORDON CORPORATION.

RECOMMENDATIONS

For post-emergent broadleaf weed control in highly manicured bentgrass, centipedegrass, St. Augustinegrass and buffalograss.
