

Fine Americas, Inc., Walnut Creek, CA, is a wholly-owned subsidiary of Fine Holdings, Ltd., a UK-based company with over 25 years of experience in the use and development of plant growth regulators.

Fine focuses on the development and marketing of plant growth regulators for fruits, vegetables and ornamental crops. Fine strives to improve plant growth regulator technology to meet the exacting demands of today's growers.

Fine is committed to helping growers produce top quality crops in line with their customers' needs. Fine currently develops and markets its products in more than 40 countries worldwide. An on-going program of investment designed to develop new products and enhance product value will consolidate Fine's reputation as a world leader in the field of plant growth regulation.

Excellence in PGR technology

**NEW!**

- **Abide** is a broad-spectrum PGR with consistent results for use on a wide variety of container-grown ornamental plants.
- **Abide** has been proven in major university trials with consistent results on key crops such as bedding plant plugs, Easter lilies, foliage plants and potted crops.
- **Abide** is absorbed via roots, leaves and stems, and can be applied by either foliar spray or soil drench.
- **Abide** generates more compact and sturdier plants with darker green foliage, thereby enhancing their marketability.
- **Abide** provides exceptional value.
- **Abide** contains 0.0264% ancymidol and is available in quart, 2.5 gallon and 30 gallon containers.
