

Clopyralid 3

Herbicide

Formulation
Solution

Active Ingredient
clopyralid:

3,6-dichloro-2-pyridinecarboxylic acid, monoethanolamine salt

Equivalent Brand
Transline®, Reclaim®

Case Pack / Pallet
4 x 1 gal / 24 cases
2 x 2.5 gal / 36 cases
30 gal drum / 4 drums

Application Rates
See label for specific uses and rates.

Timing
Post-emergent

Signal Word
Caution

For control of broadleaf weeds and woody brush in non-cropland areas, forest sites, industrial manufacturing and storage sites, rights-of-way, and wildlife openings including grazed areas on these sites, tree plantations, and rangeland and permanent grass pastures.

- ▶ No grazing or haying restrictions following application when used at labeled rates
- ▶ Post-emergence control of broadleaf weeds in new and established cottonwood/poplar and eucalyptus tree plantations
- ▶ For the control of mesquite and certain associated woody species on rangeland and permanent grass pastures only in Arizona, New Mexico, Oklahoma and Texas
- ▶ Can be used for control of certain problem weeds growing in forest sites and should be applied either at site preparation or after trees are planted (tree release)
